TECHNICAL DATA SHEET

FAAC

104413

230V Electromechanical operator - FAAC 413

Electrical Specifications	
Power supply voltage	**220-240V~ 50/60 Hz**
Max. power	**250 W**
Absorbed current	**1.1A**
Capacitor	**6.3µF**

Technical Specifications	
Electric motor	**Asynchronous single phase**

Performance	
Max expressed force	**2000 N (*)**
Thrust	**200 daN**
Rod max speed	**16 mm/s (*)**
Use frequency	**S3 - 30%**
Max Cycles Per Hour	**30**

Mechanical Specifications	
Rod travel	**300 mm (350 mm without mechanical stops)**
Max. leaf opening angle	**110°**

Environmental	
Operating ambient temperature	**-20°C ÷ + 55°C**

Safety	
Thermal protection	**140°C**
Protection class	**IP54**

Application Limits	
Max. leaf width	**1,8 m (2,5 with electric lock)**

Configuration	
Electronic equipment	**Not included**
