

TECHNICAL DATA SHEET

MOOG

G631-3004B

proportional valve

PRODUCT PHOTO

Hydraulic Specifications

Maximum operating pressure to ports P, T, A, B	315 bar (4,500 psi)
--	----------------------------

Physical Specifications

Mounting pattern	ISO 4401-05-05-0-94
------------------	----------------------------

Performance Specifications

Rated flow at Δp_N 35 bar/spool land (500 psi/spool land)	40 l/min (10.0 gpm)
---	----------------------------

Electrical Specifications

Rated Current (single coil)	100 mA
-----------------------------	---------------

Operating Conditions

FLUIDOS	ACEITE
---------	---------------
